

FIRST INTERNATIONAL NANOTECHNOLOGY CONFERENCE ON COMMUNICATION AND COOPERATION

Speaker's Bio

Mino N. Dastoor
Exploration Systems Mission Directorate
NASA, Washington, D.C.

A member of the senior staff at Caltech's Jet Propulsion Laboratory, he is currently on a special assignment at NASA to development and coordinate joint activities of mutual interest to NSF and NASA's Exploration Systems Mission Directorate. Dr. Dastoor is the Principal NASA representative on the Nanoscale Science, Engineering and Technology (NSET) Subcommittee, under the National Science and Technology Council (NSTC). As part of that responsibility, Dr. Dastoor oversees the Agency's Nanotechnology Program.

A central feature of the Program is to advance technologies that exploit the huge potential resulting from the convergence between nanotechnology, biology and information systems. Dr. Dastoor received his Ph.D. in Microbiology and Immunology from the UCLA School of Medicine.
